

Hailey Rosquist

GIS | Spatial Analysis | Cartography | Geospatial Data Visualization

(406) 438-3271 · haileyrosquist@outlook.com · <https://www.linkedin.com/in/hailey-rosquist>

EDUCATION

Bachelor of Science in Data Science

University of Oregon | Eugene, OR | June 2026

Domain in Geography

Relevant Coursework: GIS Analysis, Advanced Cartography, Spatial Data Science, Data Science, Statistical Modeling, Data Ethics, Linear Algebra, Computer Science

GIS & TECHNICAL SKILLS

GIS Software: ArcGIS Pro, QGIS, R, RStudio

Spatial Analysis: Spatial joins, buffers, service areas, weighted overlay, hotspot analysis, location quotients, geographically weighted regression, spatial clustering, segregation analysis, raster and vector analysis

Cartography & Visualization: Thematic mapping, choropleth maps, dot-density maps, graduated symbols, heat maps, map layout design, data visualization

Data Sources: U.S. Census, American Community Survey, NOAA, Eurostat, WorldPop

Tools: Git, GitHub, GitHub Pages, Excel, HTML, CSS

GIS & SPATIAL ANALYSIS PROJECTS

Northern Lights Visibility Cartography

ArcGIS Pro | NOAA | Eurostat | Cartographic Design

- Designed a cartographic product analyzing Northern Lights visibility across Finland, Sweden, Norway, Iceland, and Denmark.
- Processed raster and vector datasets to create thematic maps showing auroral activity and geographic patterns.
- Incorporated graticules, Arctic Circle reference information, maps, graphs, and supporting text.

Seattle Metropolitan Spatial Analysis

R | GIS | Census Data | Spatial Statistics

- Conducted multi-part spatial analysis of the Seattle–Tacoma–Bellevue metropolitan area using Census and American Community Survey data.
 - Cleaned, joined, transformed, and mapped geographic datasets using R packages including sf, tidycensus, tigris, ggplot2, and tmap.
 - Applied Getis-Ord hotspot analysis to identify statistically significant spatial clusters across census tracts.
-

PROFESSIONAL EXPERIENCE

University of Oregon Student Recreation Center

Operations Lead | Sept 2023 - Present

- Coordinated daily facility operations and delegated responsibilities across student staff during high-volume shifts.
- Monitored operational information, facility conditions, and staff coverage to make real-time decisions and resolve problems.
- Documented incidents, facility issues, and operational activity to support accurate recordkeeping and management review.
- Assisted with staff training, hiring processes, procedural documentation, and workflow improvements.

University of Oregon Student Recreation Center

Operations Manager | Sept 2023 - Present

- Coordinated daily facility operations and delegated responsibilities across student staff during high-volume shifts.
- Monitored operational information, facility conditions, and staff coverage to make real-time decisions and resolve problems.
- Documented incidents, facility issues, and operational activity to support accurate recordkeeping and management review.
- Assisted with staff training, hiring processes, procedural documentation, and workflow improvements.
